

After Midnight

Verse 1:

Staring at your front door
looking for your sign
waiting for the right time
that I can take you out, you'll be mine

I believe you're it girl
I can't believe my eyes
and it's the time of our lives

Have you ever felt
like you can't hold back
you gotta take the chances that you get
It's the right time now
to put life off stand-by
you gotta take the chances that you get

Chorus:

We had plans after midnight
You were gonna sneak out
meet me by the car
we were driving a Starlight
Just you and me
Rocking the city
Playing Dirty Dianna on the radio
We are two free souls on an open road
Just you and me
Rocking the city

Verse 2:

Everything with you girl
makes me feel alive
You're all I ever wanted
I love the way you making me smile

Driving down the highway
holding your hand
and it was just like we planned

Have you ever felt
like you can't hold back
we gotta grab the moment while we can
It's the right time now

You don't care if they'll find out
that you've been up with me all night and driving, just driving
Cause even if we both get caught
We won't regret that night that we were driving, just driving
